***Make Your Own Cough
Syrup and Save Money***

***Better than the ready-made kind.
Easily prepared at home.***

The first cough syrup that money can buy, costing only about one-fifth as much as ready-made preparations, can easily be made up at home.

Any drugstore can supply you with 24 ounces of Pinex (24¢ per ounce worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 65 cents and gives you a full pint—a family supply—of a most effective, pleasant tasting remedy for all coughs.

It's truly astonishing how quickly it acts, penetrating through every an-
passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the inflamed or swollen throat membranes, and gradually dissolves the mucus that sticks and dreaded cough will disappear entirely. Nothing better for bronchitis, spasmodic croup whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norwood's Eucalypti Extract, the most powerful and effective remedy in the world over for its prompt healing effect on the throat membranes.

Avoid disappointment by asking your druggist for "24 ounces of Pinex" with full directions and don't accept anything else. A guarantee of satisfaction is given. The remedy promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.—Advertisement.

LETTER SENT WOMEN
OF ALLIED COUNTRIES

MRS. WILSON AND DR. SHAW
WRITE JOINT APPEAL.

CONSERVATION OF MORALS

WASHINGTON, February 6. — Mrs. Woodrow Wilson and Dr. Anna Howland Shaw, chairman of the women's committee of the council of war and defense, have joined in an open letter to the women of the allied countries, which will be distributed through American diplomats in those countries. It says:

"Dear Friends — The unparalleled struggle for democracy and permanent peace which binds our nation in common with the women of the world, is a women's task. In the yearning of the heart for peace, we are called to the highest moral and spiritual welfare of children there is a deeper and more subtle bond which makes all women akin."

"Out of the mutual agony and love of the mothers of America, this message is sent to the mothers of the world, faithfully pledging our interest and co-operation in the welfare of their children and daughters at this time of unusual temptation and danger."

Fear Loss of Moral Fiber.

In all our countries, mothers are willing and proud to give their sons to defend the principles of justice and to make the supreme sacrifice which their government demands of them and to accept with fortitude and calmness their death. But they shrink from the greater sorrow which comes from the loss of moral and physical vigor. They are not so ready to wonder that their hearts fail them when they realize the temptations which beset their sons, removed from home and family life, living the unaccustomed life of a soldier, with its excitement and fierce passions of conflict; all of which impair their powers and exhaust their strength. In such and more healthful circumstances, they would easily be conquered.

It is not only the mothers of our daughters, who are thrust out of the home into war service, with the glamor of war and the excitement of the front, but the war tends to foster and which lead to the breaking down of restraints that have been the basis of our civilization.

Responsibilities on Women

"These abnormal conditions place upon all women tremendous responsibilities and urge the closest union in an effort to conserve the moral force of society, to protect our young men and women that they may be kept pure and that they may be able to conduct in an intelligent manner. We must be united, we may look with hope to a future home life of our peoples, for that is the only way to secure the purity and nobility of individual character, which is the only basis for a nation that is righteous in government which is the only basis for a permanent peace and prosperity to any nation.

"If we fail in this then have our children and our children's children and future generations will rightly charge the women of our time with the responsibility of the great wrongs which must always rest with the mothers of our race."

She has written to the queen of Italy the same letter she wrote the queen of Spain, which was previously published.

I. T. BUSH'S NEW DUTIES.

Hurley, head of the United States shipping board, is combining both offices higher efficiency.
